## DIRECTIONS FOR USE

- ▲ To improve toilet/urinal flushing action:
  1. While standing over bowl/urinal, saturate soft toilet brush with Instant Power Professional.
  2. Wipe toilet brush under the rim of bowl/urinal forcing cleaner into the flush holes. For urinals, wipe brush from the top flush holes around the inside of the urinal to the drain.
  3. Wait 15 minutes before flushing. Instant Power Professional will begin to dissolve flush hole mineral deposits. Repeat as necessary with your regular cleaning until flush holes are free of deposits.
- ▲ For regular toilet/urinal cleaning:

Distribute Instant Power Professional over the entire inside bowl/urinal area with a soft toilet brush. Wait 15 minutes and flush. After use, rinse brush with fresh water.
- ▲ For waterless urinal cleaning:

To remove excessive calcium/uric acid build-up, remove cartridge, pour Instant Power Professional onto the inside of the drain. Let sit for 15 minutes. Flush with water. Replace cartridge.
